Malenna,  
Thank you for the information.

Hi David and Travis,  
My name is Breean Zimmerman, I'm with Washington State Department of Ecology's Water Quality Program. I will be working on the 401 Water Quality Certificate that is required and was recently requested by EPA for their NPDES permit. I think it would be helpful to do a site visit of the hatchery so I can become familiar with the lay out and operations. I'm including Jill Nogi with EPA on this email because, depending upon her availability, she may be joining me for a site visit. In any event, I'm wondering if you have availability for a site visit any of the following dates:

Thursday, November 3<sup>rd</sup> (10:30am)

Friday, November 4<sup>th</sup> (9am)

Monday, November 7<sup>th</sup> (10:30am)

**Thursday, November 10<sup>th</sup> (10:30am) – This date would work best for me, but if it doesn't work for you any of the other dates will work.**

Thank you,  
Breean Zimmerman | **Hydropower Projects Manager**

**Subject:** Leavenworth NFH Site Visit

**Breean,**

**You are more than welcome to come for a site visit at LNFH. The hatchery manager is David Carie and his assistant manager is Travis Collier. One of them will be able to show you around and discuss hatchery operations. I will also try and be available during your visit. Dave can be reached either through email or the hatchery's general phone line 1-509-548-7641. If you wish to see all**

aspects of the operations it would be best to schedule a visit before it snows.
